

PANDIGITAL Digital Photo Frames

- Pandigital is THE #1 Digital Frame brand.
- High Resolution Screen with beautiful color & contrast.
- Patent Pending "PanTouch" technology using sensors under the paper frame mat & glass.
- Large Internal Memory to 512MB and Pandigital Image Compression software allow storage of up to 4000 images with no quality degradation.
- 4-Layer PCB allows for continued year after year usage. Competitive products are NOT designed for continuous AC power usage, leading to a high failure rate.
- No IR Remote Eye on front of frame for a clean, traditional photo frame appearance.
- USB Host/Device functionality to allow connections directly to PC or Digital Cameras .
- New Consumer Friendly User Interface with touch and slide motion controls. Can use tap icons to achieve multiple menu levels. Forward and backward swipe motion to "turn" photo album pages/pictures.

15.0" LCD Digital Photo Frame

PANDIGITAL Digital Photo Frames

Moving Digital Images Out Of Your Camera & Into Your Home

Digital photo frames by Pandigital make sharing not just one moment, but all the special moments in your life easy. Every instant, every sensation, every experience can now be beautifully displayed in any room of the house or office. Laugh as the slideshow highlights all your fondest memories. Sigh when “your song” is played in the background. Reminisce over forgotten videos of your children, perhaps long-since grown up. Pandigital makes it all possible.
