

E-10 Darkroom Timers

Mark Time Minute Timer

Accurately times up to 30 minutes. Adjustable stop for easy reset of time "by feel" in darkroom, for frequently repeated time intervals. Compact, sturdy, economical and dependable. Winding is automatic as hand is turned to preset position. Has bell alarm and luminescent dial.

EMT901 Minute Timer 56440

Mark Time Enlarging Timer

Turns equipment off after preset interval from 0-60 seconds (1 sec increments). Has off-on switch for focussing and adjustable stop for easy repeat of same interval. Black case with luminescent dial. Features AC outlet for enlarger (10 amp capacity).

EMT903 Enlarging Timer 78380

Time-O-Lite Professional Timers, P-72 Series

For exact, fully automatic timing of all darkroom work. Interval and remaining time indicators. Safelight goes out when push button is operated. Luminous dial, line cord, enlarger and safelight outlets are polarized with a two wire and ground connection. Accepts model FS-59 foot-switch (EIT972) for remote operation. Heavy duty synchronous motor.

Specifications: 1000 watt load capacity, UL listed, CSA approved for 120v-ac 50 or 60 Hz only.

	<u>Max. Time</u>	<u>Dial Calibration</u>	
EIT902	60 sec.	1 sec.	P-72-60S

Time-O-Lite Enlarging Timer GR-90

Economy priced precision timer incorporates an accurate synchronous motor drive, with a simplified automatic reset timing mechanism.

A toggle switch controls power to the load receptacle, permitting either timed or constant output.

Features luminous dial, chemically resistant Lexan case, wall or table mounting and polarized two wire and ground line cord and receptacle, push button start with automatic reset.

Specifications: 750 watt load capacity, UL & CSA approved for 120 volts, 60 cycles. Maximum time of 60 sec., Dial calibration of 1 sec. increments.

EIT921 Enlarging Timer GR-90

Time-O-Lite Enlarging Timer M72R

Same as above except includes receptacle for safe light power cord.

EIT924 Enlarging Timer M-72R

Time-O-Lite Master Timer

Interval and remaining time indicators. Easy-to-read luminous dial. Safelight goes out when push button is operated. Line cord, enlarger safelight outlets are polarized with a two wire and ground connection. Heavy-duty synchronous motor. Push button start with automatic reset.

Specifications: 750 watt load capacity, UL & CSA approved for 120 volts, 60 cycles.

Max. time of 60 sec., Dial calibration of 1 sec. increments.

EIT923 Master Timer M-72-60S

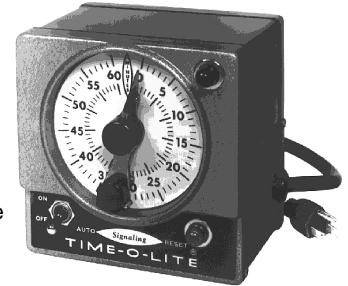

Time-O-Lite AutomTime-O-Lite Automatic Reset Timer

Features extremely accurate and durable timing mechanism with a unique reset feature.

Two pilot lights on the front of the timer indicate when the unit is timing, and when it has completed the time cycle.

Buzzer provides audible signal at the completion of the time interval.

UL listed & CSA approved.

	<u>Max. Time</u>	<u>Dial Calibration</u>	
EIT955	60 min.	1 min.	SR59-1H

Time-O-Lite Darkroom/Laboratory Interval Timer

Features a large 7" diameter dial with large luminous numerals. Set any combination of sec. & min. from 1 sec. to 59 min./59 sec. and it will automatically control the enlarging. Starts and stops appliances at pre-selected times. Operates up to 750W electric circuit for time interval.

Provisions for remote buzzer, light plug-ins or solenoid valves. Serves as a signaling timer or countdown clock with loud, built-in buzzer. It has grounded 3-wire line cord & receptacles.

Specifications: The EZC is synchronous motor-driven manual-set interval timer with a 3-way ON/OFF toggle switch which controls power supply to BLACK receptacles (to operate electric circuit during time interval) and to RED receptacle (to provide power after time interval). UL listed and CSA approved for 120 volts, 60 cycles.

EIT925 Darkroom/Laboratory Interval Timer EZC-73

Time-O-Lite Foot Switch

Dual-purpose foot switch provides remote control for the Professional P-72 Automatic Timer, or an enlarger or printer without the timer. Compact, non-skid design. Heavy-duty ten foot line cord, with adapter for direct connection to enlarger. 500 watt capacity. UL listed & approved.

Specifications: 115 volts, AC. only, 500 watts capacity.
