Ultra-compact tripod kit for today's compact digital point & shoot cameras, DSLRs and camcorders

T-0X Series

NEW! T-004X / 024X Series

Tripod inverts for angle shots

Legs fold up 180° for extra compactness

T-005X / 025X Series

T-004/024X Folds to 15.7" T-005/025X Folds to 12.2"

Gets down low for table-top shots

The SIRUI T-0X Series Tripod Kit is specially designed for today's compact point and shoot digital cameras, 4/3 Mirrorless cameras, compact DSLRs and camcorders.

The SIRUI T-0X Aluminum series tripods come in Blue, Red or Black, weigh only 2.5 lb (1.12 kg) for the T-004X/2.3 lb (1.02 kg) for the T-005X and hold up to 13.2 lb (6 kg) / 8.8 lb (4 kg) respectively. The SIRUI T-024X and T-025X tripods get their light weight - only 2 lb (0.92 kg), increased load capacity up to 13.2 lb (6 kg), impressive stability and reduced vibration characteristics from its 8-layer 100% Carbon Fiber legs.

The SIRUI T-0X's compact size when folded is up to 20% smaller than other similar style tripods. There's always room for one of these tiny wonders in your bag or backpack! Even though they're lightweight and compact, T-004X/024X tripods can still extend to over 58.2in (1478mm) * - perfect for most shooting situations.

The SIRUI T-004X/024X has an adjustable center column that moves up and down for fast and easy height adjustment. The included short center column lets you get as close as 125 mm (4.9 inches) to the ground. The larger spider provides increased stability.

The SIRUI T-005X/025X has a removable center column that allows you to place the ball head directly onto the spider. To guarantee long life, the attachment point for the center column is corrosion-resistant brass. This converts the SIRUI T-005X/025X into a convenient table-top tripod, plus, when you set the legs to the widest angle, you can get as close as 4.1in (104mm) to the ground!

The 3 leg angle positions are easy to adjust and provide maximum flexibility and control on uneven terrain. The 1/2 turn leg locks make setup and breakdown fast and easy. Precision manufacturing lets you effortlessly open and close the legs and provides impressive stability. Like the professional line of SIRUI tripods, there is no compromise in quality. Aluminum alloy parts are high temperature forged for maximum strength and SIRUI's custom anodized surface treatment insures superior wear and corrosion resistance.

The SIRUI T-0X tripod kit includes the SIRUI C-10X - a high quality compact ball head that perfectly compliments the tripod. The ball head has an anodized surface that provides excellent resistance to scratches and corrosion. It comes in 3 colors that match SIRUI T-004X/005X tripods. The rugged SIRUI C-10X Ball Head has separate knobs for panning and main lock for added control and creativity. The SIRUI C-10X Ball Head has an Arca-compatible Quick Release plate system for total flexibility and includes a SIRUI Quick Release Plate.

Features

1. Ultra compact - 15.7in (380mm) for T-004/024 Series, 12.2in (310mm) for T-005/025 Series
2. Legs fold up 180° for extra compactness
3. For speed and convenience, each leg has an automatic leg angle lock mechanism
4. Three position leg angle for uneven terrain
5. Your choice of economical aluminum or lightweight 8-layer 100% carbon fiber
6. Short center column (included) for macro and low-angle shooting (T-004X/024X only)
7. Adjustable center column moves up and down for fast, easy height adjustments (T-004X/024X only)
8. Removable center column allows for table-top use and low-angle shooting (T-005X/025X)
9. Forged for greater strength and reduced weight
10. Hook on bottom of the tripod can also hold a weight bag for increased stability

What's included:
Tripod, C-10X Ball Head
TY-C-10 quick release plate,
custom soft case, tools,
instruction manual, warranty card
