## **Sirui and Argraph Introduce Aluminum and Carbon Fiber Professional Video Tripods**

**Argraph Corp. Carlstadt, NJ** - The key to producing a high quality videos is the creativity of the videographer and a way to stabilize the camera. For optimum results, you need to use a professional quality video tripod. It doesn't matter if you're using a high-end digital video camera or a DSLR with follow-focus, monitor, etc., you need a solid, versatile support system, like the SIRUI VT-2003 and 2203 Professional Video Tripods, to make sure you get the most from your expensive equipment.

### **Total Stability and Flexibility**

When looking for a video tripod, it must be very stable, have the flexibility to work under a wide range of conditions – indoors, outdoors, on smooth surfaces and uneven terrain – and a logical design to make operation fast and easy. Whether you use all three leg sections for high-angle views or are shooting only inches from the ground, with Sirui Video Tripods you can be confident that your gear will be safe!

The multi-tube leg design provides **increased stability** and **vibration reduction**, compared to conventional single tube legs. And the numbering system on each leg makes leg height alignment extremely fast and easy. The strong, metal spider has a **75mm bowl** that accepts the SIRUI Y-75B Leveling Ball Set.

Whether you use all three leg sections for high-angle views or are shooting only inches from the ground, with Sirui Video Tripods you can be confident that your gear will be safe!

While working **in a studio** or on a **flat surface**, the fully adjustable ground level spreader provides **precise leg positioning** and **added stability**. Unlock the spreader...move to desired width...and lock spreader.

When you need more control on **uneven terrain**, remove the ground level spreader attach the center brace spreader adjust the leg stance and take advantage of the **multi-spiked feet!**

You can attach the included **rubber feet** when working on slippery wooden or stone surfaces, and keep on filming, without missing a beat.

When you purchase a **SIRUI VT Series Professional Video Tripod** – in economical aluminum or lightweight 8-layer carbon fiber (when every ounce counts) – you possess a rugged, stable, flexible, high quality tripod that you can rely on to give you top performance and many years of service.

As with all Sirui professional photographic products, the **VT Series Professional Video Tripods** come with Sirui's 6 year warranty. Sirui Professional Tripods and Heads are distributed in the U.S exclusively by Argraph Corporation and are available from photo retailers nationwide.
