SHOOT, REWIND, PRINT
Instant Print + Digital Technologies

Time is a series of moments. Now you can crop and shape your favorites.

The instax SQUARE SQ20 allows you to creatively showcase the beauty of moving subjects. Whether you're capturing that exciting moment or a thrilling adventure the instax SQ20 allows you to enjoy photography and instant prints like never before.

Specifications

Instax Square 20 Camera

- o Available in two colors, Matte Black and Glossy Beige
- o New Time Shift Collage lets SQ20 users take 4 images at one time with a time difference by pushing a single button. The time difference between images can be personalized and adjusted by 0.2 seconds up to 2.0 seconds.
- o The Sequence Filter offers the ability to capture dynamic images, adding a dreamy feel to the image.
- o The SQ20 has 16 different filters that can be applied to both still images and video.
- o With double exposure, users can superimpose two images on a single film by simply pressing the shutter button twice.
- o Bulb exposure is used to capture long exposures at night as well as light trails.
- o Compatible with FUJIFILM INSTAX SQUARE film (purchased separately).
- o 2.7" TFT color LCD monitor with 230K dots resolution.
- o Reprints are possible up to the last 50 prints.
- o Lithium ion battery (built-in), with built-in charging function.
- o Approx. 3-4 hours to fully charge (using 0.5 A USB port).
- o Printing capacity of up to 100 prints when battery is fully charged.
