Digital SLR Power Grips

**Add one to a used camera and increase its value by \$100
Power Grips for Nikon, Fuji and Canon DSLR'S IN STOCK**

Pre-Inventory Clearance Sale May 28, 2012

Shutter release for vertical shooting

Samigon Power Grips can hold up to two camera batteries for twice the power, but can also work with just one. Plus an included 6 AA battery adapter kit that allows you to use AA batteries in emergency situations. Side mounted shutter release for vertical shooting. Each Power Grip mounts through the camera's battery compartment and screws into the camera's tripod thread. The Power Grips also have standard tripod mount located on the bottom of each unit, keeping the important ability to attach the camera to a tripod.
