Confidential Dealer Price Book

ARGGRAPH

CORP

111 Asia Place • Carlstadt, NJ • 07072

Phone: (201) 939-7722

**For Orders Call Toll Free: 1-888-ARGGRAPH or
1-800-526-6290 • Fax: (201) 939-7782**

NOW! Email your orders to: orders@argraph.com

Price pages are arranged in alphabetical order by brand name. Product codes (In Argraph's catalog) are arranged in alpha-numeric order on the price pages to make them easier to locate.

To cross reference the price page items to Argraph's illustrated catalog, simple refer to the first letter of our code. This indicates the product section.

Please visit our website: www.argraph.com

Email us: info@argraph.com

TERMS & CONDITIONS OF SALE

Payment terms vary depending on product and program. Terms are 2% 10 days, Net 30 days on most Photo Products. Net 30 days on all Computer/Digital Imaging Products. Orders are accepted subject to approval by Argraph Corp. credit department and subject to price prevailing at date of shipment.

FOB Carlstadt, New Jersey 07072

MINIMUM ORDER: \$100.00 dealer net. If you require shipment of an order less than \$100.00, a handling charge of \$5.00 will be added to your invoice.

PREPAID SHIPMENTS: Orders totaling \$500.00 or more, at net billing, from our warehouse will be shipped prepaid (free freight) to your store, unless otherwise noted. The method of transportation and carrier will be of our selection. If, however, at your request, we are required to ship by a method not normally used by us, your order (even if over \$500.00) will be shipped freight collect.

HAWAII, ALASKA, PUERTO RICO, & CARIBBEAN: Please call to make shipping arrangements.

DROP-SHIPMENTS FROM MANUFACTURERS: Drop-shipments from manufacturers such as Delta, Da-lite DuraTone, Pacific Image are no longer qualified to be shipped prepaid. Epson drop-shipments over \$600 will be shipped pre-paid.

SPECIAL ORDERS: We will order any item you require from our manufacturers, but please allow a reasonable period of time for delivery of the item. Special order items may not be in stock at the manufacturer and we may have to wait for the item to arrive. Special order items cannot be cancelled after placing the order, refused at time of delivery, or returned for credit.

NEW ACCOUNTS

We require four trade references plus bank references. Initial opening order must amount to \$300.00 or more at dealer net. Subject to credit department approval.

DROP SHIPMENTS TO YOUR CUSTOMERS

We can arrange fast shipment directly to your customer. These orders will be charged a \$5.00 handling charge plus all shipping costs for shipments within the United States. \$25.00 plus freight for shipment outside the United States.

DAMAGE OR LOSS CLAIMS

Argraph Corp. is not responsible for the loss or damage to merchandise that is in the hands of public carriers. Claims for visible or concealed damage or loss of package(s) must be made by you, the consignee, directly with the carrier. We will be happy to assist you with your claim, but assume no

responsibility. SAVE ALL ORIGINAL PACKAGING

RETURNED CHECKS, PAST-DUE BALANCES

Returned checks are subject to a minimum \$40.00 handling charge. In addition, all discounts associated with a returned check will be charged back for payment. Past due balances are subject to 1.5% per month interest and all reasonable collection fees.

SHORTAGES

Any claim for shortages must be made in writing WITHIN TWO DAYS from receipt of shipment. Notices are to be addressed to the Attention of: "Traffic Department Manager". Failure to make such claims within such period shall be conclusive evidence that the goods have been received in good condition and in quantities indicated on Argraph invoice.

MERCHANDISE RETURNS

Returns for credit must be authorized in advance on an RA Form (Return Authorization), obtainable from Argraph Office. Full information must be furnished with each Return Request (i.e.) Reason for Return, Date of Invoice & Invoice Number. Authorized Returns must be shipped prepaid. Returned merchandise accepted for credit must be free of price marks, in resaleable condition and in original containers! A RE-STOCKING CHARGE OF AT LEAST 15% WILL BE MADE FOR INSPECTION AND RESTOCKING WHEN THE ERROR IS NOT OURS. Unauthorized returns will be refused and returned freight collect.

REPAIRS

To speed up repairs of defective merchandise, it is best to send the item directly to the manufacturer. This eliminates double handling, thus permitting prompt processing. Ship all returns prepaid. Pack well and clearly state the problem on the packing slip. See list of Manufacturer's Repair Stations on page 2 of Argraph catalog for complete addresses.

The following products must be returned directly to the manufacturer!
CPM/Delta - 10830 Sanden Dr., Dallas TX 75238

This Pricebook Supersedes All Previous Pricebooks And Supplements.

Please remove your old pricebook, and insert this new 2012 Argraph pricebook in your Argraph binder along with your Argraph catalog. Discard all old pages. If you need a new Argraph binder and/or dividers, please call 1-(800)-526-6290.

CPM/DELTA

CPM/DELTA (See Dropship Policy)

\$25 drop shipment fee will apply per location on orders of \$250 or more Dealer Net. Freight on Drop Shipments under \$ 2,000 will be added to the invoice with a minimum \$10 charge. Drop Shipments of \$2,000 or more will be prepaid in the contiguous U.S. Drop Shipments will be shipped within 3-5 business days based on product availability. Drop Shipments will not be shipped incomplete. A \$20 expedite fee will apply to orders which must ship same day. Same day shipments must be received by 12:00 noon Central Time. To avoid excessive D/S charges, most orders can go from your nearest Argraph warehouse. Sinks/stands, which can ship only by truck, will have freight added.

NOTE: Any Delta 1 or Delta Pro items not listed are available on SPECIAL ORDER.

FLOTONE graduated background is a beautiful synthetic PVC material for professional photographers, art directors, graphic designers, etc.

These smoothly graduated backgrounds afford interesting lighting effects without losing valuable time setting up and doing trial shots.

FLOTONE allows the photographer to achieve, in just seconds, beautiful effects that would take hours with lights and single-tone backgrounds.

Each FLOTONE sheet is individually hand-made to achieve a silky matte, non-glare surface. The synthetic PVC material and colors do not absorb water, so they can be used with ice cubes, fruit, flowers, etc. They can be cleaned with a mild soap solution and soft cloth, making FLOTONE reusable.

MARUMI

Priced to be your most Profitable Digital Camera Accessory!

DHG Filters (Digital High Grade)

The First Filters designed specifically for digital cameras and lenses

Digital Cameras Need Special Filters

Marumi DHG Filters eliminate the flare and ghosting prevalent when the CCD or CMOS chips in digital cameras convert light into electrical signals.

- Marumi's Proprietary ultra-low reflection coating increases light transmission.

- Lens' outer rim is blackened to minimize internal reflection.

- Satin smooth, ultra thin, matte-black metal filter frame further minimizes reflection.

UV -L390 Filters

Block UV rays with wavelength of 390nm or less. Produce natural, clear images with sharp contrast without affecting the visible light. Available in both **DHG**, and **SUPER DHG** versions.

Featuring the Digital Super Coating that gives you:

- **Hard Protection** - Even with "heavy duty use" it guards the filter's surface from scratches
- **Water & Oil Repellent** - Just wipe off any water or oil spots
- **Antifouling** - Keeps the lens surface free of dust and dirt

Plus the features of Marumi's renowned DHG Filters.

- Proprietary ultra-low reflection coating increases light
- Lens' outer rim is blackened to minimize internal reflection.

DHG Achromat Macro Lens

This breakthrough technology developed by Marumi makes DHG Achromat filters ideal for macro photography. Achromat Macro filters are designed to shorten the focal length of your lens and to enhance its macro mode capabilities with outstanding clarity. Other filters can provide simple magnification. Only Marumi Digital High Grade (DHG) Achromat Macro filters provide the edge-to-edge sharpness, detail, and clarity that professionals demand.

Marumi Digital High Grade (DHG) Achromat Macro Lenses are available in 2 magnifications: 330(+3) and 200(+5). Both produce outstanding edge-to-edge clarity that is unsurpassed by any other filter product.

Redhancer™ - Enhances and “pops” the reds, oranges, and browns in all photo and video images, indoors or outdoors. Gives a picture postcard look to images taken all year round– fall foliage, party decorations, spring flowers, etc. Use in combination with a polarizer for even more dynamic results. Fully coated.
Bluehancer™ - Enhances blues
Greenhancer™ - Enhances greens

	TYPE	34mm	37mm	43mm	46mm	48mm	49mm	52mm	55mm	58mm	62mm	67mm	72mm	77mm

Dynamic MC-L370 - State-of-the-art Dynamic Multi-Coating™ significantly reduces reflections and flare by increasing light transmission to over 99.6%. Cuts ultraviolet light at 370nm, 20nm lower than standard UV/Haze filters, for more accurate color rendition, greater contrast and sharper looking photo and video images.

	TYPE	34mm	37mm	43mm	46mm	48mm	49mm	52mm	55mm	58mm	62mm	67mm	72mm	77mm

MC-Center ND - This unique Multi-Coated neutral density filter has a density of .05 (1/8 f-stop / filter factor 1.1) at dead center which decreases gradually to zero at the edges. Compensates for the tendency of many wide angle/zoom lenses to under expose at the edges (over expose in the center) due to light fall off at the edges.

	TYPE	34mm	37mm	43mm	46mm	48mm	49mm	52mm	55mm	58mm	62mm	67mm	72mm	77mm

PANA-VUE

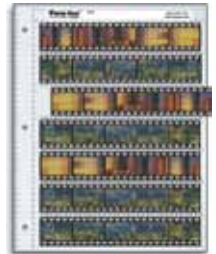

ITEM #	DESCRIPTION	MFR#	UPC CODE	LIST EACH	UNIT PRICE
--------	-------------	------	----------	-----------	------------

PANA-VUE® ARCHIVAL PAGES

Archival quality • Acid-Free • No PVC • Safe for long term storage • Designed for 3-ring binders and hanging files
View, organize, and preserve your negatives, slides, and prints • Protect from fingerprints, scratches, and dust

How to Order: Each Argraph Item# is one pack. i.e., EPA409 = 1 pack of 25 pages 35-6x4, EPA410 = 1 pack of 100 pages 35-6x4.
Case quantities are listed for more efficient ordering. When ordering cases, order by number of packs: i.e., to order a case of 35-6x4 order 50 packs of EPA409.

Why you should stock Pana-Vue Archival Pages:

- Pana-Vue Archival Pages are priced 8 to 20% less than Print File. Aggressive promotions makes Prices and Profits even more attractive.
- Pana-Vue Archival Pages benefit from the immediate brand recognition of Pana-Vue, known by photographers for more than half a century.
- Pana-Vue Archival Pages packaging has the same exciting, appealing look of the world famous Pana-Vue Slide Viewers. The self-selling packages are color coded so your customers can easily find what they want.
- Pana-Vue Archival Pages are manufactured in the USA. The quality is the highest.
- Pana-Vue Archival Pages are all 3 ring punched and most can also be used with Pendaflex hanger bars.
- Pana-Vue Archival Print Pages are clearly marked "Safe for Photographic and Digital Prints" to help you expand in this growing market.
- Pana-Vue Archival Slide Pages are ALL 8 mil extra heavy weight polypropylene. Print File charges a premium for their 8 mil pages.
- Pana-Vue Archival Pages are sold only through our dealers. We do not sell Pana-Vue Pages direct to end users. Visitors to our website are directed to dealers who stock Pana-Vue. Order Pana-Vue and you will be included in our Dealer Locator list.
- Pana-Vue Archival Pages include all the best selling sizes and formats. More products will be added as called for by the changing Photographic Market.

PANA-VUE® PANA-SCAN™

Pana-Vue® Pana-Scan™ Picture & Business Card SCANNER

Scan Photos up to 4" x 6"
Scan Business Cards and Convert Information to Usable Data

Great for
FUJIFILM
instax &
Polaroid
Prints

Now you can go through those shoeboxes of old pictures in the closet, scan them into your computer and print copies or send them to friends and family. Found a picture of the kids at their 5th birthday party? Scan it and send it to the grandchildren to show them how their parents looked at 5.

Old pictures fading? Scan them and add a new vibrancy to a new print with the Arcsoft MediaImpression software (PC and MAC) included.

A great way to add Instax, Holga, and Lomo pictures to Facebook and other social networking sites.

Make sure the whole family has their own copies of all the family memories.

Put the old picture into the scanner and out it comes as a digital image ready to email or print

And as an added feature, scan in that pile of business cards you collected over the years. The Arcsoft BizCard Scan OCR software for windows (included) reads the information on the business cards allowing you to save to Outlook or Excel for easy management.

FUN, AND EASY TO USE, FOR THE WHOLE FAMILY

Technical Specifications:

• Scanner Type	Sheet-fed scanner single page
• Start-up time	Less than 7 seconds
• Memory card support	SD / SDHC up to 32GB / USB Flash Drive
• Controls	2 Button (Power / Custom)
• Scan function

Pana-Scan™

SLIDE & FILM SCANNERS

Pana-Scan Scanners enable you to quickly and easily convert your cherished 35mm Slides and Negatives, and 110 Negatives (with optional 110 carrier) and 126 Negatives (with optional 126 carrier) into high resolution digital images.

Pana-Scan scanners give you an easy way to print, share, email, archive and digitally store all of your precious memories.

The APA123 5 Mega-Pixel Pana-Scan Portable Slide & Film Scanner enables you to scan your slides and negatives directly to an SDHC Memory Card**without the need to be connected to a computer. You can show all of your precious images and memories on TV, and print, share, email, archive and store them too.

The APA125 has all the same features as the APA123 BUT scans images at 14 Mega-Pixels! This enables you to enlarge your images and crop and maintain sharp crisp images.

SIRUI T-005X/025X SERIES ULTRA-COMPACT TRIPOD KIT

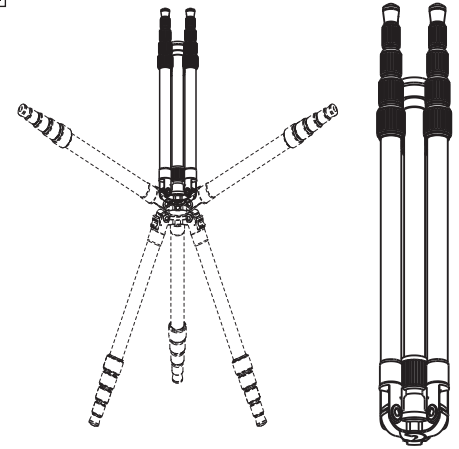

Ultra-compact tripod kit for today's compact digital point & shoot cameras, DSLRs and camcorders.

T-005X Tripod Kit

T-025X Tripod Kit

Legs fold up 180° for extra compactness

Only 11.8" when folded

The exciting T-005X/025X + C10 tripod outfits were specially designed for today's compact point and shoot digital cameras, E.V.I.L. (Electronic Viewfinder w/Interchangeable Lens) cameras, DSLRs and camcorders.

SIRUI T-005X tripods have a shiny, colorful appearance (red, blue or black) that almost makes them look like works of art! The T-025X comes in elegant basic black and has 8 layer Carbon fiber legs for added load capacity and stability.

And their compact size - **only 11.8 inches (30cm) when folded!** - is 20~30% smaller than other similar style tripods. There's always room for one of these tiny wonders in your bag or backpack! And, they weigh less than the 1 liter bottle of water you are carrying.

Even though they are compact, and lightweight, these impressive tripods can still extend to over 51.4 inches (130cm) - perfect for most shooting situations. **The T-005X can hold up to 8.8 lb. (4kg) and the T-025X can hold 13.2 lb. (6kg)!**

Like the professional line of SIRUI tripods, there is no compromise in quality. Aluminum alloy parts are high temperature forged for maximum strength and SIRUI's custom anodized surface treatment insures superior wear and corrosion resistance.

These kits include

The C-10 - a high quality ball head that perfectly complements the tripods. The ball head has a color anodized surface that has a distinctive look, while providing excellent resistance to scratches and corrosion. It comes in 3 different colors (red, blue and black) that match the T-005X and T-025X.

Features

1. Legs fold up 180° for extra compactness
2. For speed and convenience, each leg has an automatic leg angle lock mechanism
3. 3 position leg angle for uneven terrain
4. Your choice of economical aluminum or lightweight carbon fiber

What's included:
C-10 Ballhead
custom soft case
and tools,
quick release plate

SIRUI TX SERIES PROFESSIONAL TRIPODS

TX

Our most compact, full-sized tripods specifically designed with the traveler in mind.

Winner of Camera Magazine Innovative Imaging Product of the Year - TX
 5 of the top 10 Ball Heads in Germany's "Traumflieger Test of 33 Ball Heads" are Sirui Ball Heads
 Named China's top ten best-selling brand of photographic equipment

Legs fold up 180° for extra compactness

TX series tripods - our most compact full-size tripods - specifically designed with the traveler in mind.

For easy storage and transport, the tripod can fold as small as 13.4 in (34cm.) - about the size of a 2L water bottle - and weighs as little as 1.8 lb (0.8kg) !!

You can easily fit a TX tripod into a backpack, camera bag or carry-on luggage!

The TX Series tripods have a unique leg mechanism that allows you to fold the legs up 180°. This allows the tripod to be folded significantly smaller than comparably sized tripods with conventional leg designs.

Simply depress the leg angle lock and invert the legs 180°. An added advantage is that you can keep a ball head on the tripod and it will still fit in the compact carrying case that's included.

T-1005X
 Recommended Ball Heads: K-10X, G-10

T-1205X
 Recommended Ball Heads: K-10X, G-10

T-2005X
 Recommended Ball Heads: K-20X, G-20

T-2205X
 Recommended Ball Heads: K-20X, G-20

Features

1. The ideal tripod for travelers - full-sized, but folds down small
2. Legs fold up 180° for extra compactness
3. The center column can be inverted for angle shots
4. For speed and convenience, each leg has an automatic leg angle lock mechanism
5. Short center column is supplied for low angle or macro shooting.
6. 3 position leg angle for uneven terrain
7. Your choice of economical aluminum or ultra lightweight carbon fiber
8. TX 2 Series has retractable spiked feet for outdoor photography

What's included:

short center column, custom case, padded shoulder strap and tools

SIRUI N SERIES PROFESSIONAL TRIPODS

N

The perfect blend of height, load capacity and flexibility.

Legs fold up 180° for extra compactness

Leg converts to a Monopod.

The N Series tripod is an excellent all-purpose model with many useful features not found in other tripod systems.

By using high quality materials and designing the leg tubes to have only a 3mm difference in diameter for added stability, the tall N-2204 is also able to be folded very compactly! It can extend to an impressive 65 in. (165cm), while folding down to only 18.1 in. (46cm)! Yet, it weighs only 2.9 lbs and has a load rating of 33 lbs.

The N Series tripod has a unique leg mechanism that allows you to move the legs up 180°. This allows the tripod to be folded significantly smaller than comparably sized tripods with conventional leg designs. Simply depress the leg angle lock and invert the legs 180°. An added advantage is that you can keep a ball head on the tripod and it will still fit in the included tripod case.

In addition to being a high quality tripod, N Series tripods have the ability to be converted into a monopod! This is really convenient when tripods are not allowed or when you're shooting in tight spaces.

N-1004

Features

1. Tripod converts to monopod
2. Legs fold up 180° for extra compactness
3. The center column can be inverted for unusual low angle shots
4. For speed and convenience, each leg has an automatic leg angle lock mechanism
5. Short center column is supplied for low angle or macro shooting.
6. 3 position leg angle for uneven terrain
7. Your choice of economical aluminum or lightweight carbon fiber
8. N2 Series has retractable spiked feet for outdoor photography

What's included:
short center column, custom case, padded shoulder strap, wrist strap, extra reversible mounting screw, mounting platform and tools

SIRUI M SERIES PROFESSIONAL TRIPODS

M

Our tallest heavy-duty tripods are
lightweight and fold compactly.

Legs fold up 180° for
extra compactness

Winner of Germany's
Foto Magazin Tripod
Quality test - M3204

5 of the top 10 Ball Heads in
Germany's "Traumflieger
Test of 33 Ball Heads"
are Sirui Ball Heads

Named China's
top ten best-selling brand
of photographic
equipment

The M Series tripod is one of our tallest tripods. When you need a heavy-duty model, but still want it to be compact, nothing comes close to the M Series. Take the M-3204 - it extends to an impressive 69.6 in. (177cm), yet folds down to only 20 in. (51cm)!

Weighing only **4.8 lbs (2.2kg)** in Aluminum and **3.7 lbs (1.7 kg)** in Carbon Fiber, this amazing tripod has a **load rating of 39.6 lbs (18kg)** and will easily fit in an air line carry-on!

The M Series tripod has a uniquely designed leg mechanism that allows you to move the legs up 180°. This allows the tripod to be folded significantly smaller than comparably sized tripods with conventional leg designs. Simply depress the leg angle lock and invert the legs 180°. An added advantage is that you can keep a ball head on the tripod and it will still fit in the included tripod case.

In addition to being a rugged tripod, it has the ability to be converted into a **high-capacity monopod!** This is really convenient when tripods are not allowed or when you're shooting in tight spaces.

SIRUI S-N SERIES PROFESSIONAL TRIPODS

S-N

S-N series flat style tripods have an extremely functional appearance, are only 1.6 inches (4 cm) thick when folded flat and are small enough to be easily carried and stored in a suitcase or backpack. All S-N series tripods have 8 layer carbon fiber legs for maximum load handling and light weight.

Flat design makes it easy to carry and store in backpacks and carry-ons.

Flat design + versatility = perfect choice for travel photography.

For added load capacity and stability, this new generation of flat style tripods has increased minimum leg tube diameters.

The reversible center column lets you mount your camera at a unique angle for low level or ground level shooting

S-N 2 Series tripods have retractable stainless steel spikes for outdoor photography.

S-1204N

Recommended Ball Heads:
K-10X, G-10

S-1205N

Recommended Ball Heads:
K-10X, G-10

S-2204N

Recommended Ball Heads:
K-20X, G-20

S-2205N

Recommended Ball Heads:
K-20X, G-20

The hook at the bottom of the center column allows you to hang additional weight (sand bag, camera bag, etc.) under the tripod for added stability.

For added versatility, S-N series tripods are designed with a detachable leg that converts into a monopod - extremely convenient when tripods are not allowed or when shooting in narrow areas. And the center column can be attached for more height.

The legs have two angle positions for use on uneven terrain and for low angle macro shooting (a short center column is included). These and many other valuable features make S-N tripods excellent for travel photography.

Newly designed locking system

The SIRUI S-N series tripod has a unique leg position locking system that clicks in place when the tripod is opened. This guarantees that the tripod legs will be properly positioned - providing a rugged, stable support for your equipment. Simply open the tripod in the direction of the arrows until it clicks into place. When you're done shooting, press the red unlock button and close the tripod flat.

What's included:
short center column,
custom case, padded
shoulder strap and tools

SIRUI R SERIES PROFESSIONAL TRIPODS

Cross platform tripods for big cameras, long lenses and professional video equipment.

R

The R3 and R4 series are uniquely designed to satisfy many needs. They can be used for still photography - with big cameras and large lenses - plus, by changing the mounting plate, they can be converted into high quality tripods for video cameras and DSLRs with digital video capabilities.

Perfect for still and video camera systems

R3, R4 Series tripods have a unique mounting platform that can accept a wide range of mounting plates, bowl adapters, leveling devices, etc. for use with professional film and digital SLR and video cameras. This approach lets you quickly exchange plates with different cameras or heads (ball head, gimbal, etc.) already attached.

The center column-free design allows you to get as close as 3.5 inches (9cm) to the ground for low angle or macro shots!

Built for heavy equipment

The R3/R4 series is especially well suited for use with large, heavy telephoto lenses - for photographing birds and other forms of wildlife.

It is also an excellent choice when shooting with high quality, professional video equipment.

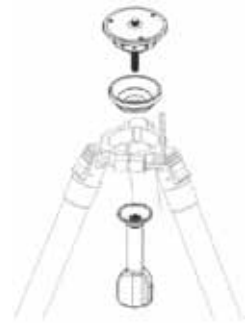

Total Flexibility

R3/R4 Series tripods offer outstanding flexibility. You can use these tripods for DSLR, medium and large format and video cameras. The flat mounting plate can be easily exchanged with a wide range of adapters for various shooting applications.

R3/R4 Series tripods have the largest diameter leg tubes in the SIRUI lineup. With a maximum diameter of 36mm, they have a maximum load capacity of 44 lb. (20kg) - ideal for heavy cameras and telephoto lenses!

Features

1. Unique design of R3/R4 allows you to change mounting plates for different applications
2. Built-in bubble level helps make horizontal adjustments fast and easy
3. For speed and convenience, each leg has an automatic leg angle lock mechanism
4. 2 position leg angle for uneven terrain
5. Retractable spiked feet for outdoor photography

Optional bowls and leveling heads for video applications

L SERIES MONOPODS TILT HEADS

L-10

For ultimate stability, nothing but a tripod will do. However, there are times when a tripod is not practical or allowed. A monopod offers excellent stability when working with long telephoto lenses and makes a difference in low-light situations. Monopods are easy to carry, can be set up instantly and are ideal when you are working in tight spaces.

You've seen sports photographers on the sidelines with huge lenses - they are given small spaces to shoot from and often need to quickly move from place to place. Using a tripod is not an option under these conditions. Only a monopod will do the job!

SIRUI P306 and P326 monopods have 6 sections that extend to 60.6 in. (154 cm) when fully opened, yet, are only 15 in. (38 cm) when closed - small enough to fit in a backpack or photo bag. The Sirui P324 and P424 are 4 section Monopods that extend to 66.9 inches and close to 22". They are designed to support more weight at greater heights.

Features

1. Retractable stainless steel spike for extra grip during outdoor shooting
2. Foam grip for solid hold in wet or cold conditions
3. The mounting plate comes with a double headed, reversible screw that accommodates 1/4" and 3/8" tripod sockets

L-10

What's included:

compass, wrist strap
and tools

What Makes Sirui Professional Tripods Your Best Choice?

Forged for Greater Strength and Reduced Weight

Instead of using traditional casting methods typical of tripod construction, Sirui is a pioneer in using forging technology in manufacturing. During the forging process, the deformation and recrystallization of metal causes the structure of the metal to be more welded together and compact - greatly increasing its strength-to-weight ratio. This enables Sirui to build products with exceptional strength and durability, that are surprisingly light.

Forging ensures the integrity of metallic fibers so that it remains consistent inside & out. Good integrity allows for a longer lifetime as well as better performance.

In fact, the forging process can create parts that are much stronger than those manufactured by any other metalworking process.

Forged

The added strength of forging allows thinner, lighter components.

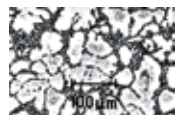

Micro structure of the metal after forging. The consistent structure provides very impressive strength.

Cast

Others' cast components must be thicker and heavier to provide the same strength.

Micro structure of the metal after casting process. Inconsistent structure with many gaps and weaknesses.

8 Layers of Carbon Fiber for Superior Load Capacity

SIRUI is one of the few manufacturers who make their own Carbon fiber leg tubes. The use of 100% carbon fiber and 8 cross pattern layers, makes SIRUI tripods and monopods capable of supporting impressive load capacities, while providing a lightweight product. In addition to providing high strength and low weight, carbon fiber is also highly resistant to temperature changes, friction (no need for lubrication) and corrosion.

Custom Anodized Surface Treatment

All SIRUI products undergo a special anodized surface treatment that makes all metal surfaces highly resistant to wear and increases durability and weather resistance. Anodizing is an environmentally safe electro-chemical process. This also prepares the surface to provide better adhesion of colored finishes.

Temperature Tolerance Test

Photographers often work in extreme environments, like blazing deserts or sub-zero mountaintops. It is vital that your equipment works under these conditions. That is why we torture-test all of our products - under conditions that far exceed what most people will ever experience (-40° ~ 212°F/-40° ~ 100°C). SIRUI is the first Chinese manufacturer to continuously perform the 4-hour test (equal to many years of use) on all products.

Certified Longevity Tests For Quality & Reliability

To confirm the quality and reliability of SIRUI tripods (and our dedication to details), an independent testing lab (SGS) subjected the leg angle lock spring mechanisms to exhaustive longevity tests. The test reports show that even after 100,000 actuations, the springs continued to perform perfectly!

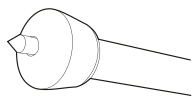

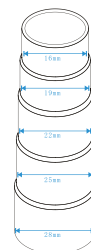

Half-turn Leg Locks

To lock the legs of SIRUI tripods/monopods, we utilize twisting locks for maximum reliability and stability. Simply twist the rubber leg locks 1/2 turn and the legs will extend by themselves.

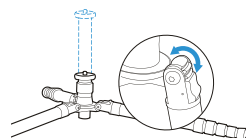

Precision Leg Tubes

The difference in diameter of N/TX/R/SN series tripod tubes is only 3 mm. Thanks to precision manufacturing, the legs open and close easily, while the small diameter difference provides added leg stability.

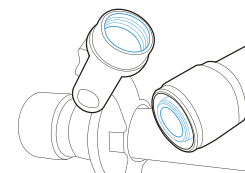

Retractable Steel Spikes

For added stability outdoors, SIRUI 2/3/4 Series tripods and monopods have retractable stainless steel spikes, stored inside the slip-resistant rubber feet.

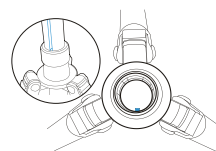

Free Short Center Column

TX/N/M/SN/R3/R4 series tripods allow low angle shooting for unique perspectives and macro photography. And most models include a free short center column (excludes R series and T-005/025) for added flexibility.

Convert to Monopod

The detachable leg of S-N/N/M series tripods lets you transform your tripod into a monopod! Reduces the amount of equipment you need to carry and makes your camera bag or backpack lighter.

Non-Twist Center Column/Legs

All SIRUI center columns and legs have keyed, grooved channels, that prevent twisting - providing additional stability and safety for your photographic equipment.

Sirui 6 Year Warranty

Sirui backs up its products with a 6 Year Warranty!

CAM Produced

Each assembled component of SIRUI Ball Heads is produced by CAM (Computer Aided Manufacturing) - the ultimate in precision manufacturing techniques.

Aviation Grade Aluminum Alloy

SIRUI ball heads are made of aviation quality aluminum alloy 7075-T6 and 6067-T6 for long life and maximum strength.

SIRUI Precision Manufacturing - 0.01mm tolerances!

SIRUI uses a special manufacturing technique that produces the support ball with tolerances to within 0.01mm of a perfect sphere. This uncompromising precision guarantees superior performance and smooth operation for any type of 35 mm, DSLR, medium or large format camera system.

Sirui Designed Dual Bevel Ball Head Locks

The interior locking system in SIRUI Ball Heads uses SIRUI designed double bevel locks for superior locking performance and reliability. Most ball heads only use a single, less efficient interior locking system.

Patented Safety Lock

The patented safety lock design, and SIRUI quick release plates, effectively prevent the camera from accidentally sliding off of the ball head. And most brands of quick release plates can be used on SIRUI Ball Heads. (Note: safety lock design not available from other brands).

Custom Anodized Surface Treatment

All SIRUI products undergo a special anodized surface treatment that makes all metal surfaces highly resistant to wear and increases durability and weather resistance. Anodizing is an environmentally safe electrochemical process. This also prepares the surface to provide better adhesion of colored finishes.

5 of the top 10 Ball Heads in Germany's "Traumflieger Test of 33 Ball Heads" are Sirui Ball Heads

Separate adjustment knobs

Separate adjustment knobs for panning, friction control and locking, provide maximum control and flexibility.

G Series Ball Heads

1. Separate control knobs for panning, locking and friction control.

2. Built-in bubble level helps make alignment

3. Sirui's unique locking mechanism provides unequalled locking force even with **loads up to 44lb (20kg)!**

K-X Series Ball Heads

1. Separate control knobs for panning and locking. Friction knob is conveniently located on the main locking knob.

2. Triple bubble levels allow precise horizontal leveling for critical shooting situations.

3. Sirui's unique locking mechanism provides unequalled locking force even with **loads up to 77lb (35kg)!**

Panning base

The panning base is designed with a 360 degree dial. Having a separate panning base lock knob provides greater accuracy for panning and panoramic shooting.

High Quality Quick Release Plates

All SIRUI TY Series Quick Release Plates are made from forged aluminum alloy. The forging technique produces high-density metals with much greater strength than die-cast methods.

Model Specific Quick Release Plates

When using long lenses or heavy cameras, it is very important to make sure that there is a perfect fit between the camera and quick release plate. For that reason, SIRUI offers a selection of quick release plates for specific types and models of cameras.

Conveniently hand tighten or use the included allen wrench to secure your camera/lens onto the Quick Release Plate

Comes with protective storage case

The red anti-twist stoppers are designed to prevent the camera from shifting or twisting as you move the ball head. And the Special QR Plates are model specific for a perfect fit.

TY Series QR plates are designed with slide-stopping rubber mats to prevent the camera/lens from moving while tightening the screw.

Sirui 6 Year Warranty
Sirui backs up its products with a 6 Year Warranty!

SIRUI G & K-X SERIES PROFESSIONAL BALLHEADS

Superior performance at
an unbeatable price.

G SERIES BALLHEAD

1. Separate adjustment knobs for panning, friction control and locking for maximum control and flexibility.
2. The built-in bubble level helps make horizontal alignment fast and easy.
3. Sirui's unique locking mechanism provides unequalled locking force even with loads up to 44lb (20kg)!

L-10X

WHY SIRUI BALLHEADS?

Each assembled component of SIRUI Ball Heads is produced by CAM (Computer Aided Manufacturing) - **the ultimate in precision manufacturing techniques.**

SIRUI ball heads are made of **aviation quality aluminum alloy 7075-T6 and 6067-T6** for long life and maximum strength.

SIRUI uses a special manufacturing technique that produces the support ball with tolerances to within 0.01mm of a perfect sphere. This uncompromising precision guarantees **superior performance and smooth operation** for any type of 35mm DLSR or medium format camera system.

The interior locking system in SIRUI Ball Heads uses SIRUI designed **double bevel locks for outstanding locking performance and reliability.** Most ball heads only use a single, less efficient interior locking system.

The panning base is designed with a 360° dial. Having a **separate panning base lock knob** provides greater accuracy for panning and panoramic shooting.

The **patented safety lock design**, and SIRUI quick release plates, effectively prevent the camera from accidentally sliding off of the ball head. And most quick release plates can be used on SIRUI Ball Heads (Note: safety lock design not available from other brands).

The **custom anodized surface treatment** makes all metal surfaces highly resistant to abrasions and produces a beautiful appearance.

K-X SERIES BALLHEAD

1. Separate control knobs for panning and locking. Friction knob is conveniently located on the main locking knob.
2. Triple bubble levels allow precise horizontal leveling for critical shooting situations.
3. Sirui's unique locking mechanism provides unequalled locking force even with loads up to 77lb (35kg)!

SIRUI TY SERIES QUICK RELEASE PLATES

TY

TY-C10

TY-50

TY-60

All SIRUI TY Series Quick Release Plates are made from forged aluminum alloy. The forging technique produces high-density metals with much greater strength than die-cast methods.

When using long lens or heavy cameras, it is very important to make sure that there is a perfect fit between the camera and quick release plate. For that reason, SIRUI offers a selection of quick release plates for different types and models of cameras.

TY Series QR plates are designed with slide-stopping rubber mats to prevent the camera/lens from moving while tightening the screw.

The red anti-twist stoppers are designed to prevent the camera from shifting or twisting as you move the ball head. And the Special QR Plates are model specific for a perfect fit.

Transcend

Exceeding Your Expectations

600x High Speed Compact Flash Cards

The Transcend Compact Flash 600x 32GB Memory Card takes a big step forward in memory card performance, with 600x speed featuring up to 92MB/s read and 87MB/s write—perfect for professional photographers or anyone who uses a DSLR camera and wants hyper-fast transfer speeds and reliability in their memory card. Compliant with UDMA mode 0-6.

400x High Speed Compact Flash Card

The Transcend Compact Flash 400x 64GB Memory Card takes a big step forward in memory card performance, with 64GB capacity and 400x speed, featuring up to 90MB/s read and 60MB/s write—perfect for professional photographers or anyone else who wants fast transfer speeds, enormous capacity and reliability in their memory card in order to take full advantage of high resolution DSLRs or HD video camcorders. The card can capture more than 13,000 still images (with a 10 megapixel camera) or record more than 3 hours of full HD video (1920x1080 at 38.6Mbps). It also features built-in ECC (Error Correction Code) that automatically detects and corrects errors that might occur during data transfer.

SDHC Class 10 Cards

The SDHC Class 10 series offer larger-volume data storage and optimized recording performance with support for FAT 32 file formats. With up to 32GB of storage, you can store your entire music or picture collection on today's high-megapixel digital cameras, HDTV digital video cameras, PDAs and other memory-hungry devices.

JetFlash USB Flash Drives

Specially designed for easy transfer and storage of huge amounts of data and information between them and any desktop or notebook computer that has a USB port. With a higher storage capacity and much faster data transfer rates, JetFlash USB Drives are perfect for storing and transferring your files, folders, documents, photos and other personal digital content.

And More!!

• 133x SD Cards • 80x Mini Secure Digital Cards • Micro Secure Digital Cards • JetFlash V30 •

VANGUARD ALBUMS

Zigview S2 Bundles

Real-Time DSLR Viewing from Every Angle!

The New **Zigview S2** Digital Viewfinder has a highly sensitive, no lag, sharp 2.5inch LCD. It also features a NTSC/PAL Video Output jack so the image can also be viewed on any video monitor. The display module rotates 300° and flips up and down 180° for easy viewing at any angle. The image can be flipped 180° to conform to the screen position.

AND NOW THE S2 COMES WITH AN ACCESSORY VIDEO TRANSCIEVER CABLE. This enables you to remotely monitor the viewfinder as well as fire the shutter from 5ft away with included cable, and up to 70 ft away with additional accessories.

Zigview S2 has a programmable motion detector sensor and intervalometer the same as the ZigviewR. **Zigview S2** employs a user changeable standard ENEL5 rechargeable battery. A shooter using the **Zigview S2** can have several charged batteries on hand for long shoots.

There are three models of **Zigview S2**: A, B, C. Each model has a different set of optics specifically designed for the sensor size of a group of cameras. And, each model **Zigview S2** includes interchangeable eye pieces for specific camera models.

- Sharp, sensitive 2.5" LCD screen.
- Screen flips 180° and rotates 300°.
- Sensor and display module can be separated with **included accessory cable**.
- NTSC/PAL video out jack enables viewing on any video monitor.
- Replaceable eyepiece adapters.
- **Now comes with up to \$190 worth of accessories FREE.**
- Shoot over, down, and around without having to stand behind the camera.

Camera Type Compatibility			
Zigview S2	A Type	B Type	C Type
S2 A	Best image quality Best fitting screen size	Normal image quality Partial image area cut out	Large image area cut out
S2 B	Normal image quality	Best image quality Best fitting screen size	Good image quality Partial image area cut out
S2 C	Bad image quality	Normal image quality	Best image quality Best fitting screen size

See the Zigview S2 in action! Playing now on **YouTube**
 Visit www.argraph.com for information

"The Zigview S2 opened up my creativity by letting me shoot with confidence from angles I wouldn't have thought possible... The Zigview S2 has a rapid refresh rate and I detected virtually no lag time between what I was seeing on the screen." - Photo District News (June,2007)
