FLOTONE graduated background is a beautiful synthetic PVC material for professional photographers, art directors, graphic designers, etc. These smoothly graduated backgrounds afford interesting lighting effects without losing valuable time setting up and doing trial shots.

FLOTONE allows the photographer to achieve, in just seconds, beautiful effects that would take hours with lights and single-tone backgrounds.

Each FLOTONE sheet is individually hand-made to achieve a silky matte, non-glare surface. The synthetic PVC material and colors do not absorb water, so they can be used with ice cubes, fruit, flowers, etc. They can be cleaned with a mild soap solution and soft cloth, making FLOTONE reusable.
