DayTripper Tablet

### Weekender

Our designers wanted a Photo Backpack that could disguise the fact that there's expensive equipment inside. The stylish yet functional Weekender backpack is perfect for short trips - easily carry camera gear, laptop, tablet, clothing, and more!

The multi-purpose SIRUI **Weekender** is a photo backpack with a side opening for easy access to your equipment and a convenient, **removable Camera Insert**.

The **versatile expandable top compartment** is great for travellers or weekend shooters. When you only carry basic gear, it's flat and compact. If you need more space, the upper compartment expands to hold an amazing **21 liters (1281 in³)!!**

The **Ergonomic Shoulder Harness System** makes the backpack feel light and extremely comfortable even when loaded with gear!

The **exclusive "Air Run Ventilation System"** keeps your back noticeably cooler and dryer.

Want to use the **Weekender** as a **conventional backpack**? Simply remove the Camera Insert and fold down the divider.

**Water resistant tarpaulin** on the top flap and bottom surface helps keep moisture out of the backpack.

For **added peace of mind**, the **SIRUI Twiz-Lock™ Security System** prevents thieves from easily unzipping the backpack.

### SIRUI's

#### Features:

- Expandable flap-top
- Patent Pending Twiz-Lock
- Tripod holder/water bottle pouch
- Removable Insert
- Single side access
- Includes Raincover

Holds up to 15" laptop, 10" tablet, FF DSLR/Mirrorless camera with zoom, 2 lenses including 70-200mm f2.8, accessories, clothes, jacket, notebooks, flashlight, shoes, snacks, etc.

### DayTripper

**DayTripper** is a very practical photo backpack. As the name indicates, you'll want to use this for quick day trips or when you only need a small selection of gear.

It's lightweight, flexible and convenient to use. **But don't let the size fool you!** Even the smallest model can hold a **camera with zoom and 2 lenses** plus a **laptop** and/or **tablet!**

The top compartment is suitable for holding personal items, like a sweater, light jacket, notebooks, wallet or purse, etc.

The **two side openings** allow quick access to your camera gear. And the **SIRUI Twiz-Lock™ Security System** helps prevent thieves from easily unzipping the backpack.

And we've included an external tripod pouch for your SIRUI tripod!

If you don't need to carry camera equipment, you can fold down the divider and turn it into a **conventional backpack**.

Although you're only out for the day, you want a backpack that's comfortable to wear. Thanks to SIRUI's Ergonomic **Shoulder Harness System**, the **DayTripper** feels almost like you're not wearing a backpack at all! It feels light - even when filled with a camera, lenses, supplies and water!

And to keep you cool and dry, **SIRUI's exclusive "Air Run Ventilation System"** keeps the backpack away from your spine and provides air circulation rarely seen on other backpacks.

The SIRUI **DayTripper** Photo Backpack **is the perfect complement** to your photo gear. It provides excellent protection for your camera, while making it easy to carry and conveniently accessible **when you need it!**

Twiz-Lock™ Security System

Air Run Ventilation System
