

SIRUI S-N SERIES PROFESSIONAL TRIPODS

S-N

S-N series flat style tripods have an extremely functional appearance, are only 1.6 inches (4 cm) thick when folded flat and are small enough to be easily carried and stored in a suitcase or backpack. All S-N series tripods have 8 layer carbon fiber legs for maximum load handling and light weight.

Flat design makes it easy to carry and store in backpacks and carry-ons.

Flat design + versatility = perfect choice for travel photography.

For added load capacity and stability, this new generation of flat style tripods has increased minimum leg tube diameters.

The reversible center column lets you mount your camera at a unique angle for low level or ground level shooting

S-N 2 Series tripods have retractable stainless steel spikes for outdoor photography.

S-1204N

Recommended Ball Heads: K-10X, G-10

S-1205N

Recommended Ball Heads: K-10X, G-10

S-2204N

Recommended Ball Heads: K-20X, G-20

S-2205N

Recommended Ball Heads: K-20X, G-20

The hook at the bottom of the center column allows you to hang additional weight (sand bag, camera bag, etc.) under the tripod for added stability.

For added versatility, S-N series tripods are designed with a detachable leg that converts into a monopod - extremely convenient when tripods are not allowed or when shooting in narrow areas. And the center column can be attached for more height. The

legs have two angle positions for use on uneven terrain and for low angle macro shooting (a short center column is included). These and many other valuable features make S-N tripods excellent for travel photography.

Newly designed locking system
The SIRUI S-N series tripod has a unique leg position locking system that clicks in place when the tripod is opened. This guarantees that the tripod legs will be properly positioned - providing a rugged, stable support for your equipment. Simply open the tripod in the direction of the arrows until it clicks into place. When you're done shooting, press the red unlock button and close the tripod flat.

What's included:
short center column,
custom case, padded
shoulder strap and tools
