

# SIRUI T-005/025 SERIES ULTRA-COMPACT TRIPOD KIT

Ultra-compact tripod kit for today's compact digital point & shoot cameras, DSLRs and camcorders.

T-005 Tripod Kit

T-025 Tripod Kit

Legs fold up 180° for extra compactness

Only 11.8" when folded

The exciting T-005/025 Tripods + C10X Head Kits were specially designed for today's compact point and shoot digital cameras, E.V.I.L. (Electronic Viewfinder w/Interchangeable Lens) cameras, DSLRs and camcorders.

SIRUI T-005 tripods have a shiny, colorful appearance (red, blue or black) that almost makes them look like works of art! The T-025 comes in elegant basic black and has 8 layer Carbon fiber legs for added load capacity and stability.

And their compact size - **only 11.8 inches (30cm) when folded!** - is 20-30% smaller than other similar style tripods. There's always room for one of these tiny wonders in your bag or backpack! And, they weigh less than the 1 liter bottle of water you are carrying.

Even though they are compact, and lightweight, these impressive tripods can still extend to over 51.4 inches (130cm) - perfect for most shooting situations. **The T-005 can hold up to 8.8 lb. (4kg) and the T-025 can hold 13.2 lb. (6kg)!**

Like the professional line of SIRUI tripods, there is no compromise in quality. Aluminum alloy parts are high temperature forged for maximum strength and SIRUI's custom anodized surface treatment insures superior wear and corrosion resistance.

### These kits include

The C-10X - a high quality ball head that perfectly complements the tripods. The ball head has a color anodized surface that has a distinctive look, while providing excellent resistance to scratches and corrosion. It comes in 3 different colors (red, blue and black) that match the T-005 and T-025.
